

Beep - Measurement system - Frame wood 18mm mill depth

Top

Bottom

Milling depths

	mm	Color
	5.5	<div></div>
	8	<div></div>
	8.5	<div></div>
	10.5	<div></div>
	15	<div></div>
	16	<div></div>
	18.1 (through)	<div></div>

NB: The lines with bigger radius inside the actual pockets (having the same color), represent the milling path of a D=20mm mill. This is useful for fast clearing out the rough pockets. Then only a single full depth inside path sweep has to be done to make the pockets the exact size.
